

# ARIZONA MANAGEMENT SYSTEM SUCCESS REPORT

DEPARTMENT OF CHILD SAFETY

## Arizona CarePortal Project Keeping Families Together

Fully funded through private community partnerships, the Arizona CarePortal Project allows Department of Child Safety case workers to identify family needs, such as broken appliances, insufficient bedding, etc., submit the need through an online database, and connect the family to local faith-based groups willing and able to respond. Since December 2015, the Project has **positively impacted 1,159 Arizona children and 452 families.**
