

ARIZONA MANAGEMENT SYSTEM SUCCESS REPORT

REGISTRAR OF CONTRACTORS

Arizona Contractor Licenses Now Issued in Days, not Months

In 2016, the Arizona Registrar of Contractors reduced from a backlog of more than 750 license applications to 30, and implemented better processes so that today, new license applications are **reviewed and approved in 48 hours**, plus a 20-day required posting period. This means licenses are now **issued in 22 days instead of 90 days** prior to improvement.
