

ARIZONA MANAGEMENT SYSTEM SUCCESS REPORT

STATE HISTORIC PRESERVATION OFFICE

Creating Jobs and Local Economic Reinvestment through Historic Preservations

Spurring continued economic recovery using federal programs and tools that honor Arizona's heritage, the State Historic Preservation Office (SHPO) fosters private reinvestment in historic downtowns, benefiting local economies. Example: in 2016 SHPO completed work with a developer to **certify a \$44M rehabilitation of the historic Professional Building in Phoenix**, qualifying the developer to receive an Arizona record \$8.84M in National Park Service tax credits. As a result, the art deco building reopened as the Hilton Garden Inn, providing much needed visitor accommodations, jobs and revenue.
