

# ARIZONA MANAGEMENT SYSTEM SUCCESS REPORT

DEPARTMENT OF REAL ESTATE

## Home Builders Deliver New Communities Faster with Real Estate's Online Services

 **50%**

**APPLICATION PROCESSING TIME**

The Arizona Department of Real Estate created an online service portal to allow developers and builders to submit nearly 700 applications a year electronically, which is expected to further reduce processing time beyond the **roughly 50% reduction achieved in 2016**. As Arizona's real estate market improves, this means developers and builders can deliver new communities to home buyers faster.
