DEPARTMENT OF REAL ESTATE

## Real Estate Implements Digital File Sharing with Attorney General's Office

The Department of Real Estate found delay in preparing and referring enforcement case files to the Attorney General's Office. Working with ADOA to identify the best enterprise solution to fit its needs, Real Estate implemented a digital file sharing service in February 2017. As a result, department staff **reduced average elapsed time to prepare and transmit files by 50-55%**, and the AG's office now receives files within minutes instead of days.
